## Editorial

I am delighted to introduce the International Journal of Dentistry and Oral Health. (IJDOH) is a peer-reviewed open access journal dedicated to the latest advancement of Dentistry and Oral Health. The journal will emphasize high-level research of clinical relevance and exhilarating approach. IJDOH deals with the prevention, diagnosis, and treatment of the dental caries including the repair or replacement of defective teeth.

IJDOH publishes original research articles, review articles, clinical review articles, practice articles, editorials, short communications, case reports, blogs, clinical management guidelines, research methods and reporting articles in all areas of Dental Research. We hope that Researchers, Academician, Industrialists, Consultancy etc. would make use of this journal publication for the development of technology and to enhance our journal with your research and experience. All published surgery articles are permanently archived and available at Biocore open website in HTML and PDF formats.

Biocore group publishes 100+ Open Access Journals with over 10,000 renowned persons, esteemed reviewers, scientists and Editorial Board Members. Biocore organizes 70+ conferences from 2018-20 on various Pharmaceutical, Clinical, Medical, Engineering, Technology, Life Science, Business and Management fields in Asia, Europe & USA with support from Biocore Journals Editors and from 50+ scientific societies.

## Benefits of Publishing

Biocore committed to make genuine and reliable contributions to the scientific community by launching high quality and highly informative journals. The articles published in Biocore journals undergoes peer review process, in which the Editorial Board appoints the reviewers to check the quality of the manuscripts submitted by different authors, reviewers check the manuscripts and provides their comments and reviews. Once the reviewers have checked the manuscripts and then the reviewers give the report about the manuscripts to the Editor. The articles published in the journals contain complete information about the concerned topic and are plagiarism free. The articles here provide useful information to the researches for their new research. As an author you have always desired that your work should be appreciated and is accessible to a large number of audience, Biocore assures that your work is appreciated throughout the world.

- Top editorial board and review team
- Quality and quick editorial, review processing
- No submission fees or page charges
- 21 Days rapid review process
- Publish articles in various formats: PDF, HTML, XML
- All the published articles are indexed in Google Scholar. Some of our journals are indexed in CAS, Index Copernicus, CABI, DOAJ and OAJSE.

- Articles (HTML, XML and PDF format) published by Biocore are freely accessible to everyone soon after publication
- Social Media promotion such as Facebook, Twitter, Linked In, Google+ etc.,
- Best membership opportunity
- World Congress benefits
- Perfect platform for global networking
- All works published by Biocore are under the terms of Open Access Creative Commons Attribution License

I would like to mention that Biocore gives the abstracting and indexing for the publication in our journals in a prospective and prestigious way. Indexing is to organize the publication and the content to be documented into the database, where anybody can use it from start user to end user. So, that the user can retrieve the concepts and information for his research from the database or the online publication link from the database.

The abstracts will need to be summarized, as the users can evaluate using the abstract whether to read the total manuscript or not. The English Language abstracts are provided for journal volumes, printed books. Monographs and chapters.

Abstracting and Indexing will help the users to improve their scientific knowledge by easily unlocking the data in the database. Thus in turn gives the accelerating techniques for the scientific society.

### **Journal Highlights**

Acute Care Surgery, Bariatric Surgery, Clinical Transplantation, Cell Therapy and Islet, Transplantation, Cosmetic Surgery, Cardiovascular surgery, Colon and rectal surgery, Clinical and Experimental Transplantation, Cochlear implant surgery, Fluids Transplantation, General surgery, Histocompatibility and Graft Survival, Immune Recognition, Inflammation, Oral Surgery, Organ Suitability, Organ and Tissue Transplantation, Organ and Tissue Donation, Plastic & Reconstructive Surgery, Pharmacology Relevant to Transplantation, Recovery and outcomes, Surgery Techniques, Scarless Surgery and Experimental Surgery, Surgical Anatomy, Surgical Complications, Surgical Oncology, Transplant Survival and Transplant Living, Transplant Methods and Complications, Transplantation Studies, Tissue Injury, Tissue Repair, Trauma and Orthopedic Surgery, Thoracic surgery, Visceral surgery and Vascular surgery, Xenotransplantation

### **Topics of Interest Include, Without Being Limited to, the Following Areas**

Oral Biology and Dental Diseases, Dental Anatomy, Oral Physiology, Oral Medicine and Pathology, Oral Histology, Tooth and Morphology, Oral Microbiology, Biofilms and Plaque, Antimicrobial Agents, Antibiotics, Oral Radiology, Prevention, Oral Epidemiology and Health, Dental Epidemiology, Dental Disease Psychology and Dental Care, Dental Diet, Nutrition and Oral Health, Dental Education, Ethical Care of Patients, Dentistry and the Law, Oral Health and Aging, Professional Responsibility in Dentistry, Periodontology, Plaque Reduction, Prevention of Periodontal Disease, Non-Surgical Therapy, Surgical Periodontal Therapy, Oral Hygiene, Endodontology and Traumatology, Root Canal Anatomy, Prevention of Dental Trauma, Mouth Guards, Operative Dentistry, Adhesive Materials and Dentistry, Interface, Filling Materials and Techniques, Polymerization, Digital Dentistry, Tooth Whitening, CAD/CAM Fixed and Removable Prosthodontics, Dental Crowns, Dental Bridges, Dentures, Replacement of Missing Teeth, Dental Biomaterials Science, Biomaterials, Biocompatibility Dental Materials, Orthodontics, Orthodontic Appliances, Dental Orthopaedics, Orthodontics, Dental, Oral and Facial Growth, Paediatric Dentistry, Fiddure Sealing, Early Dental Care, Primary Dentition and Caries, Dental Implantology, Guided Bone Regeneration, Sinus lift, Dental Orthopaedics, Oral and Maxillofacial Surgery, Tooth Extraction, Healing (Complications), Fractures, Bone Regeneration, Tumour Diagnostic and Treatment, TMJ Diseases, Medical Emergencies in Dentistry, Translational Research.
